

# HIGHMETABOLIC CLINIC

## OHIP-COVERED OBESITY MEDICINE & WEIGHT MANAGEMENT Referral Form

The High Metabolic Clinic is pleased to offer fully OHIP-covered specialized medical care for patients with overweight and obesity across Ontario. Our clinic is fully virtual.

Our multidisciplinary team of Endocrinologists, Internists, MD Psychotherapists, Psychiatrists and Registered Dietitians offers expert care for patients living with overweight and obesity.

- **NO NEGATION:** Our physicians are specialists and referral to our clinic does not trigger negation or require re-dostering.
- **ONE YEAR OF CARE:** Due to the volume of patients, our physicians will follow patients for one year and then transfer care back to the Family Physician. Your referral indicates a willingness to assume ongoing obesity care after one year.
- **OHIP-COVERED:** Medical care is OHIP-covered.
- **REGISTERED DIETITIAN:** Dietetic services are optional and private pay but may be covered by health insurance plans.
- **Please attach your patient's medical history and current medication list.**
